AGRICULTURAL CONTROL SOLUTIONS

**CS 2005**

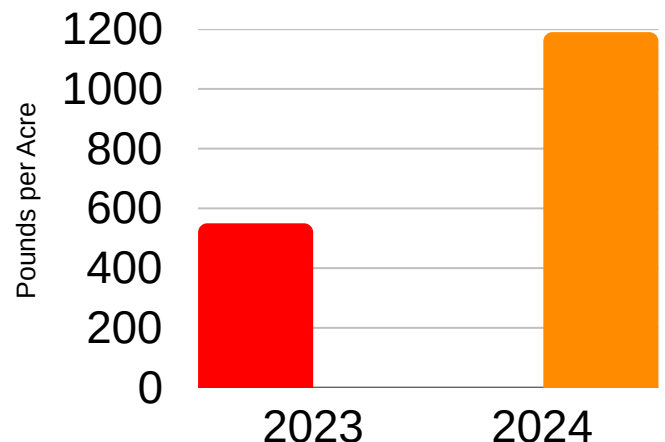

## Bigger Yields, Healthier Trees – Proven Pecan Scab Control

Larger, cleaner pecan clusters. Vibrant tree health. Outstanding production. A Georgia Pecan Company previously struggled with Pecan Scab saw tremendous results using 5 applications of Magna-Bon **CS 2005** (3 applications at 32 ounces and 2 applications at 48 ounces) and KeyPlex products—reducing disease and dramatically increasing yield from **550 lbs/acre in 2023 to 1,190 lbs/acre in 2024!**

### Key Benefits:

- ✓ **Effective Pecan Scab Control** – Healthier trees and reduced disease pressure.
- ✓ **Larger, Cleaner Nut Clusters** – Improved quality and marketability.
- ✓ **Significant Yield Increase** – 116% production increase in just one year!
